Winemaking Process	Light and direct pressing of the grapes; initial fermentation at controlled temperature vats finishing in oak wood barrels.	
Service Temperature	10-12°C	
Tasting Notes	<p>With a shiny aspect and a green citric colour, it' s a wine which presents a dense aroma with an exotic and toast fruit note from the barrel in which it staged.</p> <p>In the mouth it shows to be creamy but with a vibrant acidity. With a fresh finish.</p>
