Soil	Clay	
Alcohol Volume	14% vol.	
Total Acidity	5,2 g/l in tartaric acid	
Residual Sugar	5 g/l	
Conservation	Bottle Horizontal	
Winemaker	João Soares	
Wine Consultant		
Winemaking Process	A careful selection of the grapes picked and produced in the vineyards of Valdoeiro Estate. Full de-stemming and fermentation at controlled temperature. Maturation in small oak barrels for a twelve months period.	
Service Temperature	18-20°C	
Tasting Notes	Intense ruby colour with violet hues. Ripe fruit aroma, involved by notes of the oak barrel toast. At taste it reveals smooth with a fine and persistent acidity, offering a huge flair for several food pairing. Long aftertaste, remembering ripe cherries and moka.
